

Experience Apps in a New Mobile Way

Your app collection is now part of the driving experience. Connect an iPhone® to a JVC Multimedia receiver and watch it come alive with large detailed displays of your favorite apps. Audio works through your car speakers too. See turn-by-turn navigation maps on-screen, queue up your favorite artists on-demand, have your favorite social media/web sites read to you and more. Some will even let you control your app's key functions right from the dashboard.

1. Some apps can not be controlled on the headunit. 2. Functions may not work depending on conditions and software incorporated in your iPhone®. 3. For details, please visit the JVC website at mobile.jvc.com.
